## [RNCSE 37:1 now on-line](#) [3]

NCSE is pleased to announce that the latest issue of *Reports of the National Center for Science Education* is now available on-line. The issue — volume 37, number 1 — is the fifth issue in the newsletter's new, streamlined, and full-color format.

Featured are Glenn Branch's review of events during 2016; Randy Moore's discussion of "a cowboy museum that teaches creation"; Emily Schoerning's report on NCSE's Science Booster Club program; Kevin Padian's review of T. S. Kemp's *The Origin of Higher Taxa*; and Stephanie Keep's brief interview of Kevin Padian.

The entire issue is freely available in PDF form from <http://reports.ncse.com> [4]. Members of NCSE will have already received the issue in the mail, and will be receiving the next issue of *Reports* in early 2017. (Not a member? [Join](#) [5] today!)
